

Face cancer with clarity, confidence, and peace of mind

Access to a patient advocate, a real person, dedicated to you and specialized in cancer.

There is a flood of information to process, tough decisions that can create anxiety and generate questions like: What does this mean for my future? How am I going to tell my loved ones? How am I going to pay for this? What treatment option is best for me? What outcomes have other people like me experienced with different types of treatment?

Ardynn is here to help. A membership includes:

A private advocate: dedicated to providing compassionate and personalized services to meet your and your loved one's needs

Whole-person support: including navigating medical decisions, emotional challenges, financial concerns, finding caregiver support, or attending to other practical matters you may face on your journey

Trusted and relevant information so you can make the overall best quality of life decisions for you: information on your diagnosis, prognosis, treatment options, near and long-term impacts of treatments

Evidence-based treatment decision support: using Capire360, our proprietary tool powered with real-world data, you and your advocate can discuss insights on treatment outcomes of people like you (same age, sex, race, diagnosis and overall health status)

“

My advocate's coaching about how to talk to my children about my cancer in a way that made sense to them was a huge relief to me and my wife - and that was just one topic covered during our first of many meetings. -Joe W.

Seeing Capire360's proprietary outcomes data for people like me with the same cancer - and having my advocate share insights about it - was a game changer. - Steve L.

”

Ardynn is offered as a benefit through health plans, employers, and healthcare providers. A self-pay option is also available.
